

AB
CCL

overwriting stored averages with momentary values of corresponding operating parameters when the apparatus is turned off, wherein the values are readout as new averages when the apparatus is turned back on.

REMARKS

5 The present amendment makes editorial changes and corrects
typographical errors in the specification in order to conform the specification
to the requirements of the United States Patent practice. No new matter is
added thereby. Original claims 1-6 have been canceled in favor of new
claims 7-18. However, claims 7-18 have been presented solely because the
10 revisions by bracketing and underlining which would have been necessary
in claims 1-6 in order to conform those claims to the requirements of United
States Patent practice would have been too extensive, and thus would have
been too burdensome. The cancellation of claims 1-6 does not constitute an
intent on the part of the Applicant to surrender any of the subject matter of
claims 1-6.

Early consideration on the merits is respectfully requested.

Respectfully submitted,

(Reg.No. 39,056)
